5. Are there any specific development processes used here, for example, Scrum?
6. Who would I report to?
7. If I'm hired, what is the next game I might work on? How much input would I have on that?

Assessment processes

Method	What it assesses	Chance to impress
Application Form	Experience, knowledge, skills and general fit for the job. To a certain extent motivation	good examples and knowledge of the company

CV and cover letter	similar to application	good knowledge of the company (cover letter) and also possibly a visually attractive or creative layout/ presentation
Telephone interview	General competencies and motivation	good telephone manner, succinct style and good relevant examples using STAR
Psychometric tests	assess logic, aptitude, and speed	difficult to impress other than by gaining a good score but familiarising yourself with test formats and ensure basic arithmetic skills are well rehearsed beforehand
Security vetting	assesses security risk through friendships and acquaintances, volatility, outspoken opinions and political involvement by interviewing friends family and others as well as exhaustive record checks e.g. for significant debts.	
Skills Test	assesses technical knowledge and skills and also general problem solving ability	Difficult to impress other than by answering fully and correctly
Face to face interview	more about the person – will they fit in, verify details, assess motivation, communication, skills, thinking on the spot, client facing skills	Chance to impress with preparation, knowledge of company, being yourself.
Presentation	often used to assess motivation – willing ness to research topic, knowledge, impact.	Chance to impress with original angle or approach, use of visual aids – not death by power point
